

The Easy Choice

Glamox D50

The easy choice

D50 is the easy downlight choice for your project.

Thanks to various available mounting variants – recessed, pendant and surface-mounted – it's easy to adapt the luminaire to any interior. It is a great choice for general and accent lighting, but is also a reliable emergency luminaire. Moreover, the 93° wide light distribution variant (available in the 175 version) is perfect for lighting passageways or social rooms. Easy-to-use mounting springs, two sizes, an HF or DALI driver and different lumen out values make D50 an easy choice for any project. The die-cast aluminium body and high quality LED light sources ensure a long lifetime and great energy efficiency.

Excellent for refurbishment projects

175 and 210 mm are the standard cut-out dimensions for old fluorescent downlights, which makes them a perfect for a one-to-one replacement when refurbishing an existing installation.

The D50's construction (with a height of only 91 mm) saves space in the ceiling void, which allows for effortless assembly in the most popular ceiling systems.

D50 can also be fitted with other dimensions of re-fit rings for most different cut-out dimensions.

Savings for you... and the environment

By choosing D50 with DALI lighting controls, you gain complete control over the lighting. You can easily create readymade lighting scene schedules, or you can use sensors to adapt the lighting to the number of people in a specific room and to their ongoing needs. This way, you're reducing electricity consumption, saving money and diminishing your carbon footprint.

Technical Details:

Lumen out: 1600-4100

Light temperature: 3000 & 4000 Kelvin

CRI: 80

Emergency: Standard, selftest & central battery

Quick connector system: LINECT

The Glamox Group

Glamox is a Norwegian industrial group that develops, manufactures and distributes professional lighting solutions for the global market. Our mission is to provide sustainable lighting solutions that improve the performance and wellbeing of people.

High performance and ease of use

Our solutions are designed to combine high performance and sustainability with simplicity and ease of use, offering a superior customer experience. We make smart use of the latest technology and supply it with generations of experience and true care for our customers and their people.

Quality brands and dedicated support

We offer our solutions through a range of quality lighting brands. Regardless of brand, the close follow-up of each customer is at the heart of our offering. Whether in a production facility, a fishing vessel or an office building, our ambition is to provide lighting that contributes to a better life for the businesses we serve and those who work there.
