C90-R

C90-R
(+ MNT C90-R)

For liggende version med loftplader 300 x 1200 eller 312 x 1250 mm, anbefaler vi at bruge C20-R G2, C95-R, C90-R eller C63-R. For hængende version passer C90-R eller C63-R bedst.

Panellofter

Lineære loftsystemer findes i flere modulbredder (normalt 100, 150, 200 og 300 mm) som kun har begrænsninger i en retning (på tværs). Loftstykkerne er profilerede på hver side, enten i åbent eller i lukket udførelse. Loftstykkerne varierer meget i både højde og udformning.

Åbent loftsystem

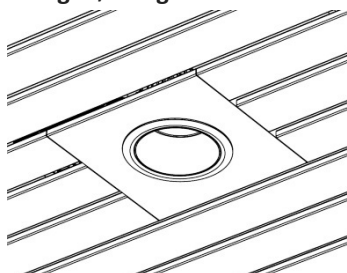

Lukket loftsystem

Dampa, Hunter Douglas

Mulige løsninger

D70-R

Da loftsystemerne har så mange forskellige udførelser, anbefaler vi at benytte indbyggede downlights eller andre løsninger, for eksempel nedhængte armaturer.
